📍 New Delhi, India

SUMMARY

Motivated and enthusiastic **Full Stack Web Developer** with strong programming skills in JavaScript and hands-on experience with the MERN stack (React.js, Node.js, Express.js, MongoDB). Adept at building scalable, responsive, and user-friendly web applications. Eager to contribute technical expertise and creativity to innovative software development projects.

EDUCATION

Full Stack Web Development <i>Masai School</i>	09/2024 – 06/2025 <i>Remote</i>
Bachelor of Computer Applications <i>Institute of Technology and Science, Ghaziabad</i>	08/2021 – 08/2024

PROJECTS

Habit Tracker | [React](#), [Firebase](#) | [Live Link](#)

- Developed a full-stack habit tracking web application using React and Firebase that allows users to create, monitor, and visualize daily habits in real time.
- Integrated Firebase Authentication for secure sign-up/login and Firestore for storing personalized user data efficiently.
- Implemented dynamic state management with React Hooks to update progress visualization and performance insights seamlessly.
- [GitHub Repository](#)

Destination Recommendation Platform | [React.js](#), [Node.js](#), [Express.js](#), [MongoDB](#) | [Live Link](#)

- Built a full-stack travel recommendation platform providing optimized routes, nearby stations, and fare details using RESTful APIs.
- Designed and implemented backend architecture with Express.js and MongoDB to handle CRUD operations and user authentication.
- Enhanced UX with responsive UI components in React and optimized API performance using caching and efficient data fetching.
- [GitHub Repository](#)

Smart Home System | [React](#), [Firebase Realtime Database](#) | [Live Link](#)

- Engineered a real-time smart home dashboard that enables users to control and monitor devices through Firebase Realtime Database.
- Integrated Firebase Authentication to personalize device control and maintain secure multi-user access.
- Implemented responsive design and real-time device status synchronization, improving system reliability and user engagement.
- [GitHub Repository](#)

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Redux, Node.js, Express.js, Tailwind CSS

Databases: MongoDB, Firebase Realtime Database

Developer Tools: Git, GitHub, VS Code

Other Skills: REST API Development, State Management, Responsive Design, DSA

SOFT SKILLS

- Problem-Solving
- Team Collaboration
- Adaptability
- Time Management
